Mop Keçe
Felt flap wheels

Keçe dilimleri, takım çekirdeği etrafında radyal olarak yerleştirilmiştir. Bundan dolayı yüksek esneklik sağlar. Mop keçeler iki farklı sertlikte mevcuttur; orta (H40) ve yumuşak (H25). Mop keçeler, herhangi bir kalıp formuna kolayca uyum sağlar. Elmas pasta ile kullanılır ve yüksek parlaklık sağlar.

Single felt slices are adjusted radially around the tool core. This adjustment guarantees highest flexibility. The felt slices are available in two different hardnesses: medium (H40) and soft (H25). The felt flap wheels are adapting easily to any mould contour. Up to a diameter of 30 mm the felt flap wheel is flush with the core. From a diameter of 40 mm the flap wheel is a cup grinder type.
